<b>Terrain description</b>	Forest terrain with continuous roads, paths and stone walls with slopes that are partly poor in detail, as well as good visibility and accessibility. Mostly moderately hilly terrain except on the longer tracks on stages 1 and 2 which will have steeper slopes. Areas with dense forest and undergrowth that prevents running are marked on the map. Towers for hunting are not reliable objects as they can be moved around. The dense tree crowns of the beech forest, combined with late start time, may be reasons for having a simpler headlamp as a map light.
<b>Local map signs</b>	<p>✗ Black cross is either a collapsed tower or a bench.</p> <p>✗ Green cross is rootstock/tree stump, at least 1,5 m high.</p>
