Terrain

The competition area consists of coniferous forest, mostly pine forest. The forest has various ages. Plenty of paths and roads. Plenty of pits of various sizes and depth. The terrain is mainly flat with some steeper areas. Very good run ability. Areas where forestry harvesting has taken place are rather easy to run. There are some smaller areas where there is young forest growing.

Map

Scale 1:10 000, equidistant 5 meters.
Mapper Göran Larsson, revised 2016.

Punching system

Sportident will be used. All types of SI-cards can be used. Each SI-card can only be used once during the relay competition. The SI-card number does not have to be included in the registration. The number is connected with the runner at check in to the exchange area. SI-card can be rented along with the entry.

Teams

Combined teams from different clubs are allowed to participate, according to rules of the Swedish orienteering federation. The rule is created with the intention that all youth-runners should have a chance to participate but not create a winning team. Please read more about combined teams at www.u10mila.se (only in Swedish). Runners who participate in the HD12 relay can also run in either the HD18 or D18 relay.

Arena

Bågskyttebanan, (Archery course) in Rankås, Tibro.
Road signs from road 49 between Skövde and Karlsborg in Tibro and from road 201 between Hjo and Tibro at Kyrkefalla church.
