GPS-equipment

Lists with runners who shall wear a GPS device will be found in the quarantine and in the Swedish League information at the arena. Will also be posted on Eventor the day before competition. The GPS-west will be provided in the quarantine. The GPS-device will be provided and started at the start. If refusing to wear the GPS according to the organizers instructions, the runner will be neglected to start. The GPS should be handed back to the organizers at the finish

Bags/ Clothes	Bags will be transported from the quarantine to the arena. Bags should be labeled with stripes colored according to the above table of classes. Stripes will be provided at the registration in the quarantine. Write your name and club and leave your bag on marked place. The label can be reused for the next competition day. Clothes will be transported from the start to the arena.
Start	Warm up map showing the route to the start will be provided at registration. The map shows a recommended route marked with orange/white stripes. It is <u>not</u> permitted to depart from the map area. Shortest way to the finish symbol on warm up map is 1200m. From this point, follow the orange/white stripes 600m to the start area. Shortest way from quarantine to the start area is therefore 1800m. Runners should not leave the quarantine more than max. 30 min. before start time. Clear and check of SI card at the quarantine on the way to start. Late start is permitted up to 5 minutes later than the correct start time, provided this can be done without disturbing other runners.
Start procedure	3 min: Call up. 2 min: Control description. 1 min: Go to map. Start time: Take map and start.
Terrain descriptions	Slightly hilly varying urban environment with asphalt roads and park areas. Large and small buildings with generally complex structure. Course conditions: Asphalt 80%, grass 10%, gravel 10%
Traffic	Some traffic may be present in the area. It is the competitor's responsibility to show respect. Be careful!
Map	Sandviken city, scale 1:4 000, equidistance 2,5 m. Drawn 2015 Drawer Karl-Erik Engblom. The map is color laser printed A3 and placed in a clear plastic folder
Special objects	x Childrens play
Control description	Control description will be printed on the map and provided separately Maximum size 50 x 150 mm
Extra fences	There will be additional fences in the terrain. These are marked with the symbol for unpassable fence and are forbidden to pass.
Forbidden areas	Settlements and other objects that are forbidden to pass according to the sprint rules. Blue/Yellow stripes in the terrain will mark additional forbidden areas.
Construction	Some construction work is ongoing in the competition area. All courses are affected by an area with renovation work. Some construction material may also be found on the ground and the runners are therefore asked to be careful. Some objects may be marked with red/white stripes. Fenced areas with construction equipment or machines have been marked on the map as <i>property</i> with surrounding unpassable fence. See sketch below! Temporary objects such as barracks, machines or similar (not fenced) are marked on the map with the sign for <i>temporary constructions</i> . See sketch below!

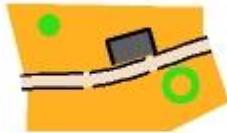

Newly sown grass

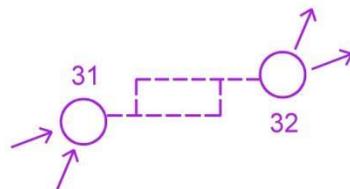

In the renovation area there are several grass areas which are newly sown. It is not permitted to run here. These areas have therefore been marked on the map with the sign for private property. For more clarity some of the areas have been marked with red/white stripes.

Cycle garage

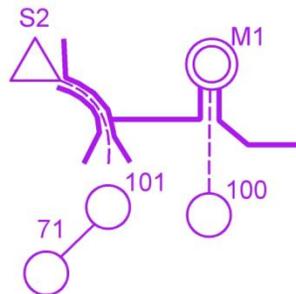

In the area there is a large amount of cycle garages with 2-3 walls and roof. For increased readability these garages have been marked as buildings even if it is possible to go in under the roof. See sketch below.

**Street crossing**

All elite classes will cross a street through a runners gate where the organizers guards will direct the runners to one of two alternative gates. There is a control both at entrance and exit of the gate. See sketch below.

**Second lap**

All elite classes will go out on a 2nd lap from the arena area. Stripes will guide the runners towards a new starting point. The 2nd lap continues on the same map. See sketch below.
