Terrain description

Long distance

Terrain in general: Runnability is very good with open rock areas, but still O-technique demanding. The area is wild country side, mainly forest (pine, oak, beech) with a few small areas of cultural landscape. Courses are to a large extent going through a nature reserve.

Runnability: Most rock areas have fast runnability and it can be good tactic to use these areas on certain legs. But as usual in orienteering, you have to select your route choices.

Slopes/heights: Terrain is flat and it is important to notice that also small height differences and slopes are shown on map.

Facilities

Dressing/showers: Outdoors adjacent to area with heated showers.

Child-care service: Adjacent to arena.

Refreshment: Cafeteria with a large assortment.

Sport equipment sale: Vetlanda OL-Sport

National spectator races: Long/middle distance races will take place at the same Arena. See separate invitation.

Media/press: Must notify Media contact, peter.andersson@siemens.com by Saturday April 1st the latest.
