

PM - Car
25mannahelgen
12-13 October 2019

This memo is meant for participants and public who arrives to the arena by car.

Since the area of parking does not give us enough parking lots we suggest that you to take the commuter train to the arena. From the nearest station, it is only a 1.8 km walk to the arena. Preferably, you can take the 25-manna commuter train, specially added to the timetable by MTR.

Station	Departure
Ulriksdal	07:18
Solna	07:19
Stockholm Odenplan	07:23
Stockholm City	07:25
Stockholms södra	07:27
Årstaberget	07:30
Älvsjö	07:32
Jordbro	07:44

Or you can visit www.sl.se and find another more suitable train.

Safety

You will park in an industrial area with heavy traffic. Get there in time so that you don't have to stress parking and walking to the arena. Be careful when you leave the car and when you cross roads. If you are very early, carry a reflex.

Car parking

We use parts of the road network and some company ground in Jordbro industrial area for parking. The distance to the arena will vary between 1 and 4 km. Depending on where you end up parking your car.

On the spots our parking crew points out the parking prohibition is not valid during the weekend as a courtesy by Haninge kommun.

WGS84 DD (LAT, LONG)

59.141768, 18.109498

Parking fee

During Saturday the fee is included in the competition fee.

During Sunday, you pay 40 SEK in the pay stations close to the entrance of the arena

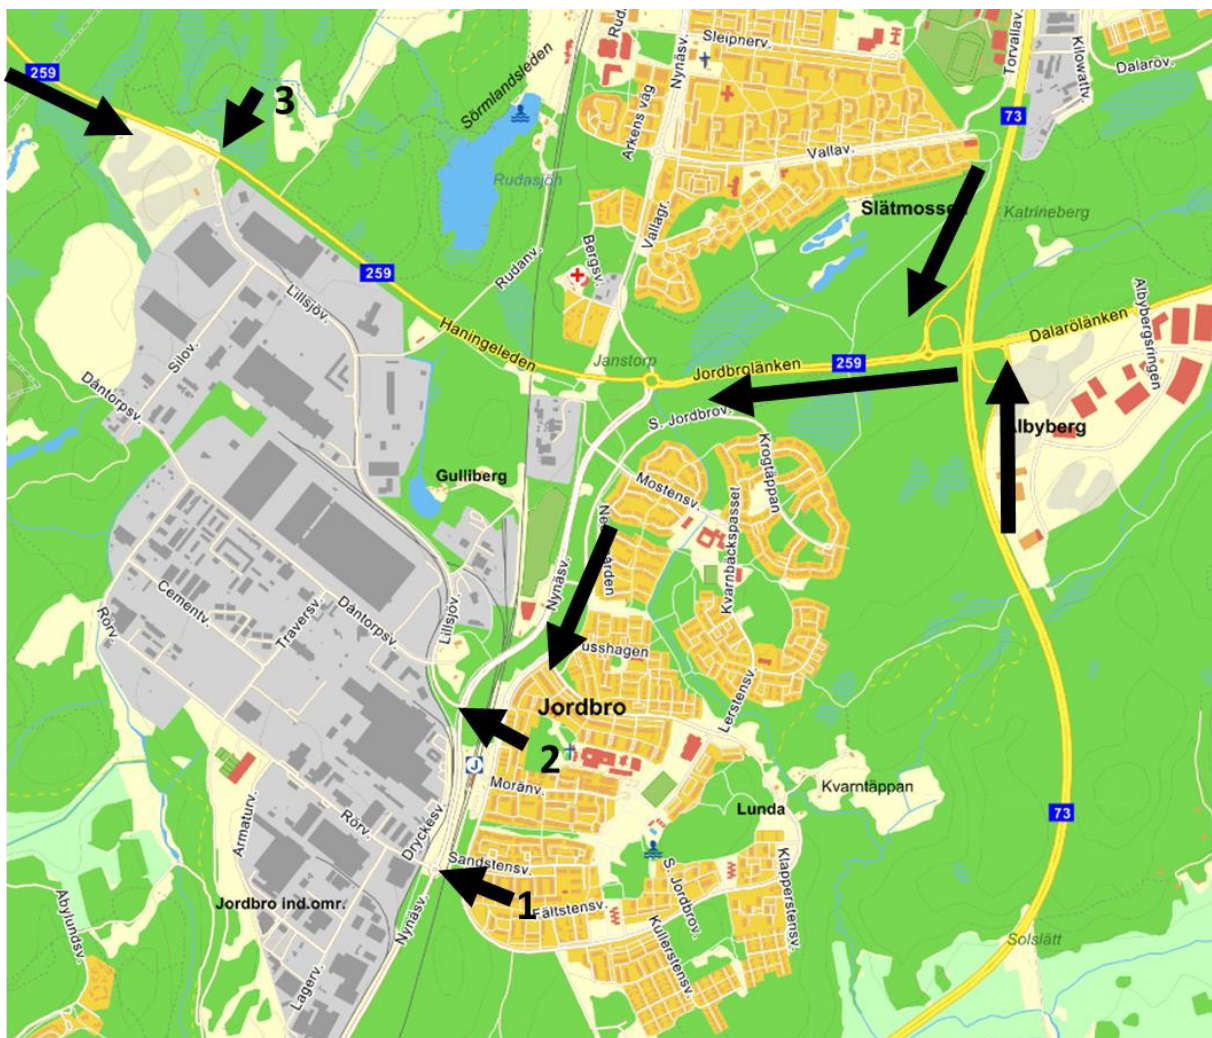

How to get to the parking area

There are three entrances to Jordbro industrial area. We avoid turning left entering the area in order to reduce the risk of jamming the road.

If you arrive by **road 73** you take **the road 259 towards Huddinge/Jordbro**. In the roundabout Huddingevägen/Nynäsvägen you take the third exit towards Jordbro heading south. Along Nynäsvägen there is two entrances to the arena Lillsjövägen (No. 2 on the map) and Rörvägen (No. 1 on the map).

If you arrive from the west (Huddinge) on **road 259** you make a right turn towards **Jordbro V** on Lillsjövägen (No.3 on the map)

The entrances will be marked with orienteering control flags

The parking crew will guide you to a parking spot. Primarily we will fill companies ground and then the streets.

The area is big so you might have to drive further down the street before you can see someone advising you where to park.

When you park

Follow the instructions from the parking crew.

Many of the companies in the area have activities during the weekend. That means that there will be some heavy traffic. Be careful when you cross the roads.

You are responsible for your car and how you park it. Even though the prohibition to park in the area isn't valid during the week-end, there are some rules.

- Do not block entrances and gates.
- Keep approx. 10m distance to crossroads.
- You are not allowed to park 30 meters before and after a railroad crossing.
- In some areas the streets are too narrow to allow parking in both directions. Follow the advice from the crew.

Leave a not in the windshield with your cellphone number in case we need to contact you

We are very thankful for the help provided by the companies lending us their areas for parking. Please help us thank them by keeping their area nice and tidy.

Remember to get your car before 1800 if you park inside a gated area. The gates will be closed right after 1800. No parking is allowed during the night.

If you end up parking further away from the arena there is an area for parking bikes within the arena.
