Terrain description Nytorps ängar

Fine-detailed Södertörn terrain of varying hilliness, mostly gentle to moderate. The terrain is mostly of good runnability, particularly on the higher ground. There are some areas of denser vegetation, thinning and matured felling. There are a couple of large paths through the area and a few smaller tracks. The courses offer varied orienteering and quick changes into different technical challenges.

Map

Scale 1:10 000, contours 4m, DH10-40, U-klasser and Öppen 8. Scale 1:7 500, contours 4m, DH45-85 and Öppen 1, Öppen 3, Öppen 5 and Öppen 7. Laser print from BL-idrottsservice.

Non-standard features

On the map there will be the symbol "X". This represents a man-made object (ex. hides and troughs).

Telephone line

In the terrain there is a telephone line which is easy to mix up with a power line as it is not on the map. This affects all legs.

Out of bounds

There are several out of bounds areas in the terrain, marked as out of bounds on the map and with blue and yellow tapes in the forest. Several courses go near private land – these are marked with blue and yellow tapes unless clear in the terrain.
