Starting lists	Starting lists are published at Eventor and at the arena on Saturday as soon as possible after the competition.
Start order	The runner with the best total time (stage 1 + stage 2) will start first. Other runners in the class starts afterwards, with the time difference that they have to the leader. Runners who are more than 45 minutes after the leader or that don't have a complete result will start with one minute interval.
Number bibs	Number bibs for the first nine runners in all classes. Bring your own safety-pins.
Before start	Approximate 3 minutes before your start time you will be called over for check of SportIdent. All runners must check their SportIdent to be allowed to start.
Start	When your start time is shown (hour, minute and second) on the start display you are allowed to start. At that second you get your map, and you can run to the starting point.
Finish line	The race ends at the finish line, but the punching is made further ahead. In equal races officials will decide the order of the finishing punch.

Good luck!
