

# REGISTRATION FEE 25MANNAMEDELN

Recently, comments have emerged regarding the level of registration fees for the middle distance during the 25manna weekend.

We have full respect for that opinion and 25manna always strives to stick to the recommended registration fees available. For this year's 25manna, we saw early on that we will have higher costs than normal due to, for example, hired buses and satellite parking. This was the only solution we saw as viable. Of course, the 25manna relay takes part of the cost, but the 25manna middle distance also must bear part of the extra cost.

The registration fee is based on SOFT's recommended registration fees and with an additional fee based on extraordinary costs for the event, and dispensation was granted last spring according to SOFT's process.

Comments on the registration fees will be provided as input to discussions ahead of SOFT's union meeting in 2024. The process of analyzing and evaluating current registration fees and the possible effect of the 25manna exemption on notifications will continue.

From this year's 25manna organizers, we now put all our focus on delivering the best possible 25mann weekend and wish you a warm welcome to a hopefully fantastic 25manna!

Welcome to the 25manna weekend!
